KENDRA EDINGER

UI/UX Designer & Developer

kedinger78@gmail.com www.linkedin.com/in/kendra-edinger www.kendraeux.com Canal Winchester, OH

SUMMARY

I'm a UX Designer and Front-End Developer who combines strategy, creativity, and technical expertise to craft intuitive, user-centered digital experiences. With a strong, 8+ year foundation in UX design, I bring ideas to life from concept to implementation, collaborating with cross-functional teams to build seamless, engaging interfaces that improve usability and drive impact. I'm detail-oriented, naturally curious, and passionate about creating experiences that feel effortless to users.

EXPERIENCE

UI/UX Designer

Corporate Tools — 03/2024 - 10/2025 — Spokane, WA

- Transformed complex accounting and operational workflows into intuitive, user-friendly interfaces that improved workflow efficiency by 50%.
- Designed end-to-end experiences for multipage applications, including the Manual Check Queue, Accounting Fraud Detection, Checkout flow, and full client portal redesign.
- Created wireframes and high-fidelity prototypes in Figma and AI-assisted workflows to support product direction and stakeholder alignment.
- Helped establish UX design standards to improve workflows, information hierarchy, cross-platform consistency.
- Collaborated closely with developers to deliver responsive, WCAG 2.0 accessibly compliant interfaces using Vue.js.

UI/UX Designer & Developer

ARCOS LLC — 11/2019 - 01/2024 — Columbus, OH

- Improved workflow efficiency by 25% by designing and developing software for B2B gas and electric utilities managing emergency operations.
- Built scalable, reusable front-end components using Angular, TypeScript, and JavaScript.
- Translated complex operational processes into streamlined, user-centered experiences.
- Helped define and scale UX design standards across multiple enterprise applications with a design system built in Storybook.
- Reduced development ambiguity by 35% by creating wireframes, prototypes, and user flows using Figma and Adobe XD.
- Collaborated with product, engineering, QA, and operations teams to deliver high-impact enterprise solutions.

Creative Technologist

Nationwide Insurance — 03/2018 - 09/2019 — Columbus, OH

- Developed responsive UI components and layouts for enterprise financial applications using HTML, CSS/SASS, Bootstrap and GitHub.
- Contributed to a scalable digital design system that improved consistency across quoting tools, investment platforms, and product experiences.
- Collaborated closely with UX and engineering teams to implement accessible, user-centered interfaces aligned with front-end and WCAG best practices.
- Supported high-visibility financial products including Care Matters Quick Quote, Mutual Funds, ETFs, and Annuity platforms.
- Completed WCAG 2.0 and Section 508 training focused on compliance standards and inclusive design practices.

JavaScript Application Developer

InSource Pro — 05/2016 - 08/2017 — Columbus, OH

- Designed and developed custom web applications using JavaScript and the ACE framework.
- Helped coordinate development tasks and mentored junior developers on framework best practices and workflow efficiency.
- Collaborated with engineering team to troubleshoot and resolve UI and functionality issues, improving overall product quality.

Web Graphic Designer

JEGS Performance — 06/2014 - 12/2015 — Delaware, OH

- Designed and developed promotional email campaigns to support marketing initiatives and improve engagement.
- Collaborated with marketing on cohesive campaign designs aligned with business goals.
- Designed and optimized landing pages to improve usability and conversions.

STRENGTHS

User-Centered Problem Solving
Identify pain points and design solutions that balance user needs with business and technical constraints

Design Systems & Consistency
Drive scalable UX standards and reusable components across platforms

Prototyping & Iteration
Quickly translate ideas into testable prototypes to validate and refine solutions

Cross-Functional Collaboration
Strong communicator who aligns design, product, and engineering teams to deliver cohesive experiences

INDUSTRY EXPERTISE

Design: Figma, Wireframing, Prototyping, Design Systems

Accessibilty (WCAG), Responsive Design

Front-End: HTML, CSS, SASS, JavaScript, Typescript

Frameworks: Angular, Vue, React, Bootstrap

EDUCATION

Bachelor of Science

Franklin University — GPA **3.88** / 4.0

2009 - 2012 — Columbus, OH

- Concentration in Front-End Web Development

Bachelors of Art

University of Toledo — GPA **3.25** / 4.0

1996 - 2000 — Toledo, OH

- Concentration in Graphic Design and Photography
